WORK EXPERIENCE

GoFormz

Technical Support Engineer
October 2018 – March 2019

- Provide solutions for technical based customer issues.
- Quickly and accurately determine if a reported issue is a user error or a technical bug.
- Create tickets for confirmed bugs complete with relevant log entries, steps to reproduce and scope of impact.
- Ensure the help documentation is up to date and gaps in the documentation is filled.

StanzaPet

Software Developer Intern
October 2018 – November 2018

- Enhance and create new features for StanzaPet.com
- Reformat web site to be responsive across all platforms
- Fix bugs and test web site to have cross browser compatibility

Vacation Village Resorts

Area Marketing Manager
March 2013 – Present

- Manage all west coast event marketing operations and generate new sales opportunities across the country.
- Created and trained all marketing teams in CA, NV, and AZ.
- Maintained the highest conversion rate from lead to appointment on the west coast.

Smart Home Remodeling

Assistant Marketing Manager
April 2011 – March 2013

- Assisted in managing all operations for the canvassing and event marketing teams.
- Created a highly effective marketing pitch for Magic windows that was used in all new employee training.
- Surpassed weekly quota for leads and appointments.

EDUCATION

Origin Code Academy

Full Stack Software Development Certification
Graduated August 2018

PROJECTS

GoFormz Background File Export

- Through two API calls the program exports a file, recognizes its extension, dynamically names it, creates a folder and saves the file locally.

GAS IT UP

- Currently working on it.
