

Bobby Patterson

ABOUT ME

I am a salesman turned software developer with a gift of gab and a passion for coding. I am looking forward to merging my background in digital and event marketing with my new career as a software developer.

EXPERIENCE:

Vacation Village Resorts

March 2013-Present

Area Marketing Manager

- Managed all west coast event marketing operations and generated new sales opportunities across the country.
- Created and trained all marketing teams in CA, NV, and AZ.
- Maintained the highest conversion rate from lead to appointment on the west coast.

Smart Home Remodeling

April 2011-March 2013

Assistant Marketing Manager

- Assisted in managing all operations for both the canvassing and event marketing teams.
- Created a highly effective marketing pitch for Magic Windows that was used in all new employee window training.
- Surpassed weekly quotas for leads and appointments.

PROJECTS:

Origin Portal

<http://origin-portal.herokuapp.com>

- Added features to the Origin Code Academy web app. The app allows employers to see a list of qualified graduates that are actively looking for a job.
- Consolidated the sign up form for Employer and Student into one more efficient form.
- Increased efficiency for the user by deleting unnecessary links, buttons, and features.

Origin Mobile App

Available in the Google Play Store

- Created the Origin Code Academy Mobile App that students will use for day to day operations.
- Created the Punch Clock feature that allows students to check in and out of school.
- Created the Check In/Check Out button and implemented multiple security features throughout the app.
